

## Complete, Customized Home Care and Hospice for Cancer Patients

Banner Home Care and Hospice is committed to providing individualized, comprehensive care to patients and their families. Our care teams include specialists to provide the following in-home care to cancer patients:

### Hospice

- Personal care assistance
- Emotional, physical, and spiritual support
- Customized care plan for symptom management and quality of life
- Medication and durable medical equipment, as appropriate
- Education of disease progression
- Therapies such as music therapy and palliative radiation, to manage pain, promote relaxation, and relieve stress
- 24/7 availability of interdisciplinary team
- Guidance to support the safety of the patient
- Respite care for caregiver relief
- Bereavement and emotional support

### Home Infusion Therapy

- **Antibiotics** for infections
- **Antiemetics** for nausea and vomiting
- **Hydration therapy** to rehydrate and boost immunity
- **Diuretics** to manage fluid retention
- **Steroids** to reduce inflammation
- **Total parenteral nutrition** for feeding

### Home Medical Equipment

- Negative pressure wound therapy
- Non-invasive ventilator
- Airway clearance vest

### Home Health

- **Physical therapy** to improve strength, balance, and mobility
- **Occupational therapy** to regain skills for independent living
- **Speech therapy** to support communication and swallowing
- **Skilled nursing** for wound care, medication management and more
- **Nutrition support** and meal planning from a registered dietitian
- **Resources and coping support** from social workers

Banner Home Care and Hospice services are offered to patients in the Greater Phoenix metropolitan area.
