

Complete, Customized Home Care for Cancer Patients

Banner Home Care is committed to providing individualized, comprehensive care to patients and their families. Our care teams include specialists to provide the following in-home care to cancer patients:

Home Infusion Therapy

- **Antibiotics** for infections
- **Antiemetics** for nausea and vomiting
- **Hydration therapy** to rehydrate and boost immunity
- **Diuretics** to manage fluid retention
- **Steroids** to reduce inflammation
- **Total parenteral nutrition** for feeding

Home Medical Equipment

- Negative pressure wound therapy
- Non-invasive ventilator
- Airway clearance vest

Home Health

- **Physical therapy** to improve strength, balance, and mobility
- **Occupational therapy** to regain skills for independent living
- **Speech therapy** to support communication and swallowing
- **Skilled nursing** for wound care, medication management and more
- **Nutrition support** and meal planning from a registered dietitian

Banner Home Care services are offered to patients in Tucson and neighboring communities.
